

**INFINITELY MANY NEW TOPOLOGICAL
CHARACTERIZATIONS FOR WEAKLY P_0 PROPERTIES, T_1 ,
 T_2 , AND METRIZABLE, AND ERRORS IN THE PAST**

Charles Dorsett

Received January 22, 2017

Abstract

In this paper, infinitely many new characterizations of a weakly P_0 property Q_0 are given and used to give infinitely many new characterizations of T_1 , T_2 , and metrizable, and errors from past investigations of Q_0 , T_1 , and T_2 are noted.

Keywords and phrases: weakly P_0 , T_1 , T_2 , metrizable.
